

RGGI – School Projects Application for Renewable Energy Projects

Section 1

Applicant Information

The purpose of this section is to gather contact information of the applicant. The applicant shall be deemed the primary contact for purposes of the application.

Name:

Address:

City or Town/Zip Code:

Phone:

Fax:

E-Mail:

Section 2

Project Site Information

The purpose of this section is to collect information on the physical location on which the project is to occur.

Name of School:

Project Site Address:

Project Site City or Town/Zip Code:

Property/Building Owner(s):

Section 3

Renewable Energy Application Information

The purpose of this section is to gather information on the renewable energy system.

Type of Renewable Energy:

System Capacity:

System Electrical Generation:

System Heat Production:

Section 4

System Life Information

The purpose of this section is to gather information on the life expectancy, warranty, and maintenance cost of the proposed renewable energy system in years.

System Life Expectancy:

Warranty Duration:

Estimated Maintenance Cost over Life Expectancy:

Section 5

Project Description

The purpose of this section is to obtain a project description including; the nature of the proposed project, the location of the project at the school and the type of renewable energy that are the subject of the proposed project. The technical feasibility of the project should also be addressed. Provide a description of all permitting, zoning and approvals required to complete the project. (Max.two pages or less in a font no smaller than 11 point)

Section 6

Educational Program

The purpose of this section is to obtain a detailed description of the educational component that the applicant will administer along with the physical project. The educational component of the project shall make the development, installation and use of the renewable energy technology visible to the students and the public. Educational projects include producing scientific data from the project that can be analyzed by the students to show energy production and savings for the school. (Max. 2 pages or less in a font no smaller than 11 point)

Section 7

Project Cost

The purpose of this section is to obtain the total cost of the project and the amount requested from this program.

Amount requested:

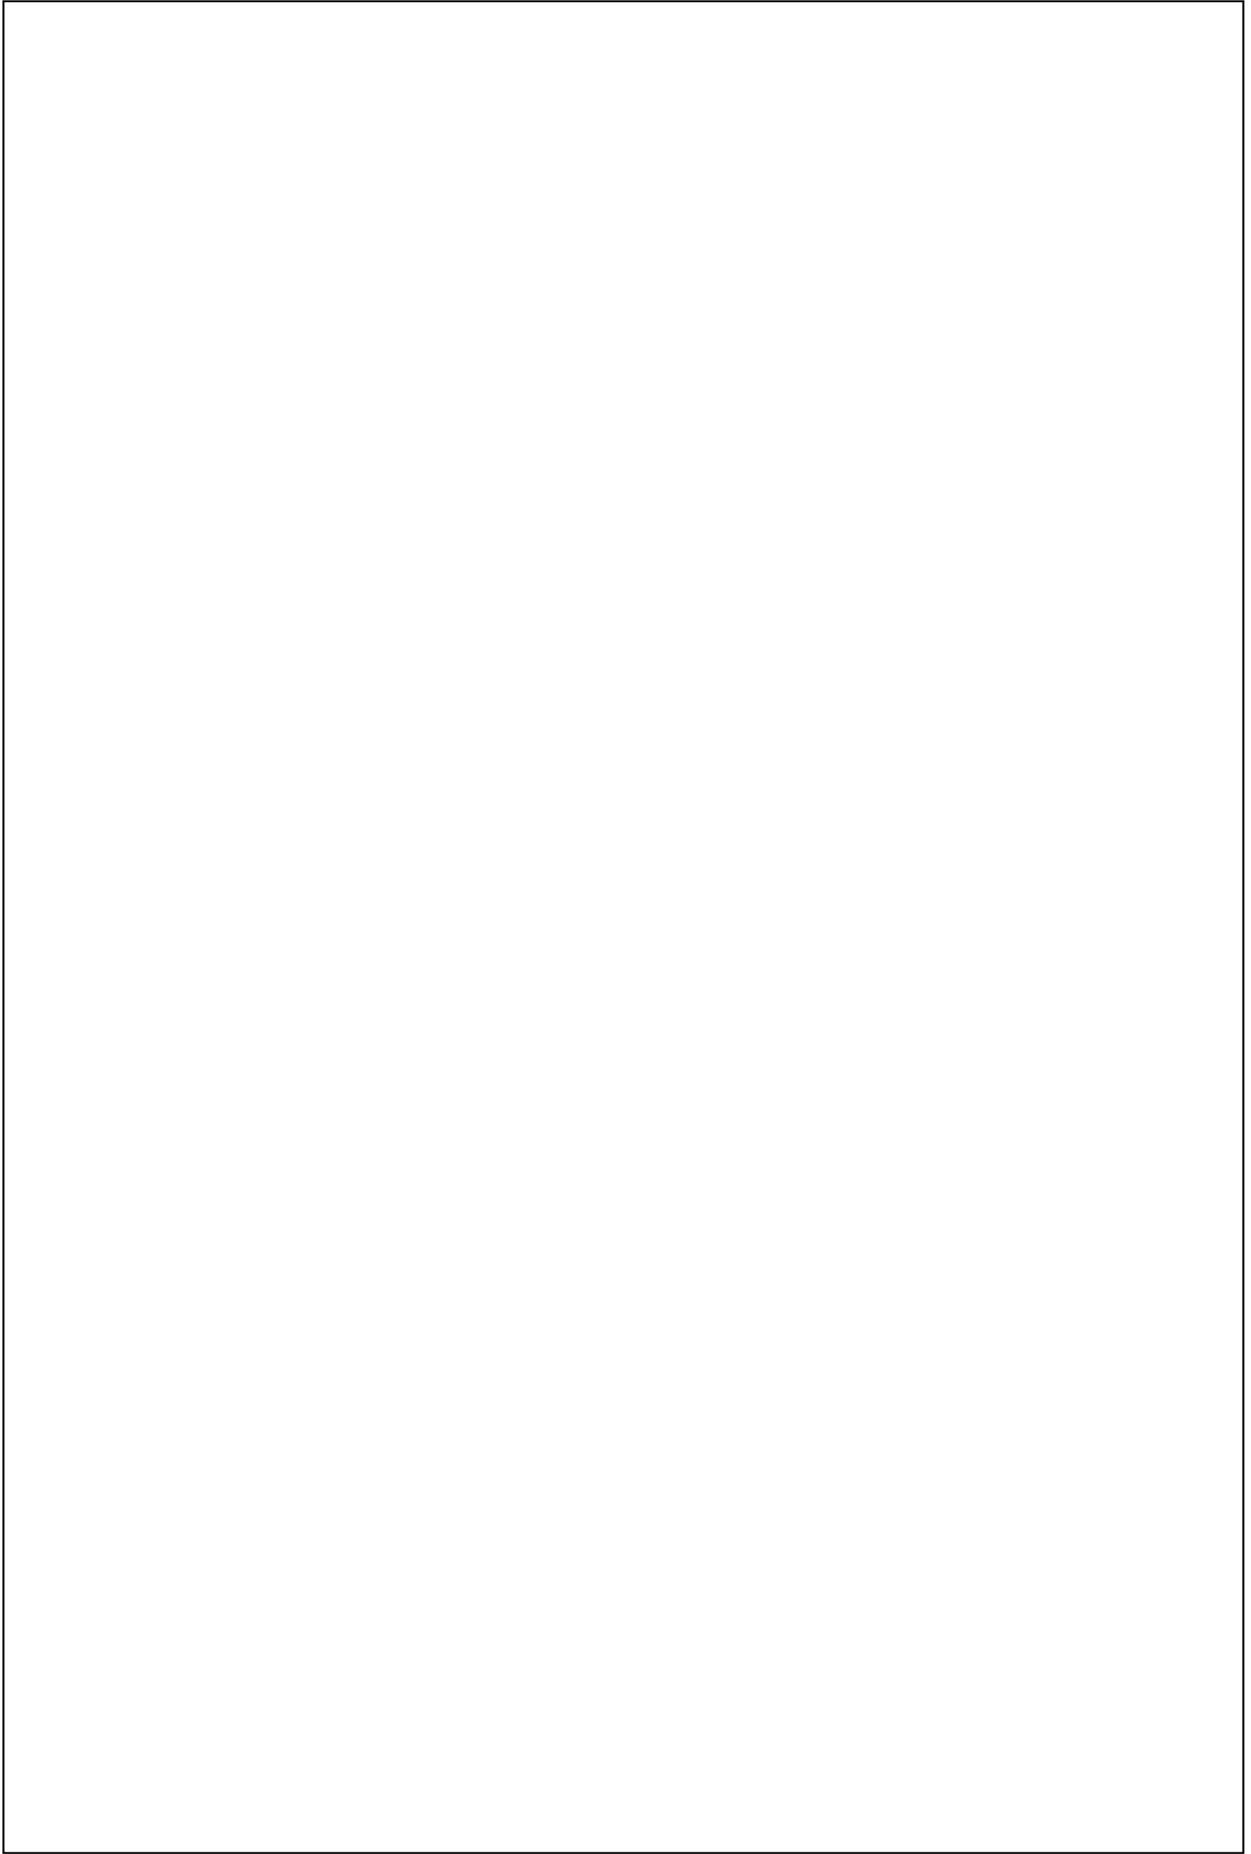

Contribution by the School:

Project cost:

Section 8

Project Schedule

The purpose of this section is to obtain a complete schedule of all major activities associated with the execution of the project. Include a project schedule including all major activities (permitting, zoning and all other approvals required to complete the project) from notice of award to project operation.

Section 9

Qualification Statement

The purpose of this section is to obtain a statement of qualifications assuring that the person or persons who will perform the proposed project have adequate experience to execute the project and financial information demonstrating the capability of the person or team to complete the project successfully.
